

Stuart

I did DNA 5 years ago at St. Johns Church in Colchester. Since then I have completed a degree in Youth and Community Work with Applied Theology at Ridley Hall. I am now based as a full time youthworker at All Saints Church in Woodford Wells. I got married last summer and enjoy football and films. I support both Colchester United and Manchester United. One for the glory, one for the pain. My favourite film is CRASH.

The best thing about DNA were the Staff Team and the other trainees as we all were on the journey together and I made some amazing friends. During DNA the biggest thing God taught me was about how forgiving people allows you to experience more of the life God has for you

My focus for OnLine will be looking at how to bridge between outreach events like Dad's and lad's football and the Church as well as how you raise up volunteers.
